

COPY in 5 easy steps:

1. Select Color or Monochrome copying
2. Select the type of original you are copying
3. Set the size of the original or use auto-size
4. Choose the scaled size of the copy
5. Press the copy button

JETimage^{NET}

Designed Exclusively for Contex Scanners.

JETimage^{NET} is the complete copying software for Contex wide format scanners. The application is designed to unlock the full potential of your Contex scanner as only Contex software can. JETimage^{NET} supports most large format printers for high-quality copying. JETimage^{NET} supports both keyboard and touch-screen interfaces.

JETimage^{NET} copy software is the ultimate tool for professionals in reprographic and copy shops. It is designed especially for large

[COPY, SCAN, PRINT]

format copying in regard to speed, flexibility and production of high quality color matched copies or cleaned-up monochrome copies.

- > **Vivid, high-quality color copies**
- > **Clean, clear monochrome copies**
- > **Precise color matching**
- > **Scan-to-file**
- > **Print-from-file**
- > **Touchscreen compatible**
- > **Scan, Copy, and Print to network**

SAVE TIME AND MONEY

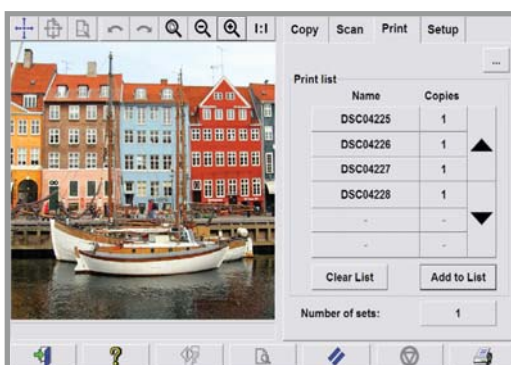

- > Printer profiles provide control for copy size, tiling, paneling, nesting = **less waste**
- > Preview window provides real-time adjustments to image before making the copy
- > Accounting features built-in, allowing job tracking by account name
- > Parallel Printing allows multiple printers to handle multiple copy/print jobs

COPY

JETimage^{NET} is designed to be the ideal copying software for your Contex wide format scanner. With full support for most wide format printers on the market, JETimage^{NET} can produce excellent results in both color and black and white with minimal setup and calibration required.

- > Simple, accurate closed-loop color calibration
- > Custom printer profiles for correct sizing, scaling
- > Editing tools: lightness, saturation, levels, sharpness, blur
- > Scaling options: scale to sheet size, by percent, or custom
- > Media profiles: for perfect reproduction on any media type

SCAN + PRINT

JETimage^{NET} is not limited to simple copying functions. JETimage^{NET} and your Contex scanner can be used to SCAN images to file as well, even save as a PDF. And you can use JETimage^{NET} with your printer to PRINT saved files, with all the same controls over the printed output in the COPY mode.

- > Scan-to-File with full Contex scanner control
- > Save files as PDF, JPG, TIFF, and many others
- > Print-from-File with a wide format printer
- > ICC color management support
- > Batch printing sends several files to the printer at once

NETWORK

With the WIDEsystem^{NET} scanner driver and control software installed, Contex scanners can be shared on the network (just like a printer) with other users of JETimage^{NET} software. A simple configuration of WIDEsystem^{NET} and your scanner can be selected by others on the network as if it is locally connected.

- > Scan-to-Net: scan across the network to another PC
- > Use JETimage^{NET} with a scanner connected to a different PC
- > Scanner, PC, and Printer can all be located separately
- > Scanning/Copying/Printing over LAN or Internet
- > Designate a shared folder in WIDEsystem^{NET} for network scanning
